The following notes describe 4.5.x updates to the Node.js Agent.

If an artifact has been updated, the version number of the updated artifact and its availability date are listed below. The version number corresponds to that shown on the download portal (<http://download.appdynamics.com>).

The most recent releases appear at the top of the page.

4.5.15 Updates

Version 4.5.15.0 – May 8, 2019

Resolved Issues

Key	Summary
DLNATIVE-2454	Error/error details fields do not have any value for Node.js application

4.5.14 Updates

Version 4.5.14.0 – April 23, 2019

Enhancements

- You can now [install node.js with only libagent code downloaded](#).

Resolved Issues

Key	Summary
DLNATIVE-669	Using npm lockfiles results in integrity error
DLNATIVE-2378	Errors details are not getting displayed on the UI for the Node.js agent

4.5.13 Updates

Version 4.5.13.0 – March 21, 2019

Resolved Issues

Key	Summary
DLNATIVE-2325	Vulnerability reported in request library used by Node.js agent 4.5.10

4.5.12 Updates

Version 4.5.12.0 – March 1, 2019

Resolved Issues

Key	Summary
DLNATIVE-1706	Support OIT in libagent mode
DLNATIVE-2341	Node.js agent crash in aws-sdk instrumentation

4.5.11 Updates

Version 4.5.11.0 – February 20, 2019

Resolved Issues

Key	Summary
DLNATIVE-2302	Error snapshot summaries are not verbose with Node.js Libagent when compared with Node.js proxied variant
DLNATIVE-581	Node.js agent on Alpine Linux
DLNATIVE-2169	500 errors under load using Postgres and Alpine
DLNATIVE-2183	Node.js agent - package.json has wrong range of supported Node.js engines

4.5.10 Updates

Version 4.5.10.0 – January 25, 2019

Resolved Issues

Key	Summary
DLNATIVE-2188	Libagent slow snapshots do not have callgraphs

4.5.9 Updates

Version 4.5.9.0 – December 7, 2018

Resolved Issues

Key	Summary
DLNATIVE2167	Using the getTransaction API twice for one request results in missing data

4.5.8 Updates

Version 4.5.8.0 – December 4, 2018

Resolved Issues

Key	Summary
DLNATIVE-2149	Node.js displays an undefined error when a query is made to Couchbase

4.5.7 Updates

Version 4.5.7.0 – November 26, 2018

Enhancements

- Node.js v11 is supported.

4.5.6 Updates

Version 4.5.6.0 – October 15, 2018

Resolved Issues

Key	Summary
DLNATIVE-2001	Node.js in libagent mode reports HTTP header data, but it is not displayed

4.5.5 Updates

Version 4.5.5.0 – October 5, 2018

Resolved Issues

Key	Summary
-----	---------

DLNATIVE1814	Node.js agent loses or mis-aligns exit calls sent by loopback connectors/datasources under heavy load
DLNATIVE1963	Node.js Agent does not collect process snapshot and displays error

4.5.4 Updates

Version 4.5.4.0 – September 11, 2018

Resolved Issues

Key	Summary
DLNATIVE-1738	Loading snapshots for Node.js throws exception "Failed to get details of stack trace"
DLNATIVE-1777	Node.js Agent causes application crashes on startup when the app uses Express sessions

4.5.3 Updates

Resolved Issues

Key	Summary
DLNATIVE1616	Node.js agent in libagent mode does not attach BT details with the process snapshot

4.5.2 Updates

Resolved Issues

Key	Summary
DLNATIVE-1700	Node.js agent using libagent loses track of request library exit calls under load

4.5.1 Updates

Resolved Issues

Key	Summary
DLNATIVE1684	Node.js agent in libagent mode does not attach BT details with the process snapshot
DLNATIVE1684	Node.js agent in proxy mode does not connect over SSL
