

Customize System Notifications

On this page:

- [System Events Notification](#)
- [System Use Notification](#)

Related pages:

- [Access the Administration Console](#)

Below the menu items, there are five star icons: a gold star, a grey star, an orange star, a blue star, and a light blue star. At the bottom left of the sidebar, there is a small icon of a mouse cursor.

You can customize system events and system use notification messages from the Administration Console.

System Events Notification

Certain system events trigger event notification popups in the Controller UI.

You can configure which type of events appear as notifications in the UI, as described here.

Configure Events that Trigger UI Notifications

1. Log in to the [Administration Console](#).
2. Go to the **Controller Settings**.
3. Search for the `system.notification.event.types` property. The value of this property determines which type of events result in UI notifications.
4. Set the types of events you want to see by adding them to the comma-separated string in the dialog box. To disable notifications of a particular type of event, remove it from the list. Do not use spaces between commas.

Notification Event Types

Event Value	What This Event Notification Means
LICENSE	There is an issue with the status of your license.
DISK_SPACE	There is an issue with the amount of disk space left on your system.
CONTROLLER_AGENT_VERSION_INCOMPATIBILITY	A mismatch between the version of the agent and the version of the controller has been detected.
CONTROLLER_EVENT_UPLOAD_LIMIT_REACHED	The limit on the number of events per minute that can be uploaded to the controller from this account has been reached. Once the limit is reached no more events — other than certain key ones — are uploaded for that minute.
CONTROLLER_RSD_UPLOAD_LIMIT_REACHED	The limit on the number of request segment data (RSDs) per minute that can be uploaded to the controller from this account has been reached. RSDs are related to snapshots. Once the limit is reached no more RSDs — other than certain key ones — are uploaded for that minute.
CONTROLLER_METRIC_REG_LIMIT_REACHED	The limit for registering metrics for this account has been reached. No further metric registrations are accepted.
CONTROLLER_ERROR_ADD_REG_LIMIT_REACHED	The limit for registering error Application Diagnostic Data (ADDs) for this account has been reached. No further error ADD registration is accepted.
CONTROLLER_ASYNC_ADD_REG_LIMIT_REACHED	The limit for registering async ADDs for this account has been reached. No further async ADD registration is accepted.
CONTROLLER_STACKTRACE_ADD_REG_LIMIT_REACHED	The limit for registering StackTrace ADDs for this account has been reached. No further StackTrace ADD registration is accepted.
AGENT_ADD_BLACKlist_REG_LIMIT_REACHED	If the Agent attempts to register an ADD above the limit, the Controller rejects the attempt and adds the ADD to a blacklist. There is a limit to the size of the blacklist. This event indicates that that limit has been reached.
AGENT_METRIC_BLACKlist_REG_LIMIT_REACHED	If the Agent attempts to register a metric above the limit, the Controller rejects the attempt and adds the metric to a blacklist. There is a limit to the size of the blacklist. This event indicates that that limit has been reached.

System Use Notification

The system use notification is an optional and configurable message that includes information on privacy and security notices. If enabled, the displayed message must be acknowledged before granting the user further access.

Configure System Use Notification

1. Log in to the [Administration Console](#).
2. Go to the **Controller Settings**.
3. Search for the `system.use.notification.message` property. The value of this property is the message of the system use.
4. Enter your post-login message, which will be displayed every time a user logs in, informing the user of the system usage requirements. There is a 1000 character limit.
Here is an example message:

This is a U.S. Government computer system, which may be accessed and used only for authorized Government business by authorized personnel.
